Best Stomach Remedy Free

It is an old saying that if the stomach is sound the whole body is safe, because so much depends upon the proper working of the stomach. Many persons find themselves with a disorder of the stomach which produces dyspepsia or a peculiar state of biliousness.

If you suffer from both stomach trouble and constipation you are on the way to a very serious disease. From just such conditions come appendicitis, rheumatism, skin diseases and similar disorders, because the waste matter that should have been expelled from the system through the bowels has found its way into the blood and vitiated it. What is needed at this point is not simply a violent cathartic tablet or salt, which usually does more harm than good, but a gentle laxative tonic like Dr. Caldwell's Syrup Pepsin, which people have been using for these ailments for nearly a quarter of a century. It cured J. C. Lanham, of Warrensburg, Mo., of stomach trouble of long standing, also William Voll, of 903 Ellison St., Louisville, Ky., who had the trouble for fifteen years.

However, if you have stomach trouble you want to know from personal experience what Dr. Caldwell's Syrup Pepsin will do for you. If so, send your name to the doctor and a free trial bottle will be sent you. You are urged to send for the free bottle, as the results from it will be the best recommendation of Dr. Caldwell's Syrup Pepsin. Then you will do as over two million people did last year—go to your drugist and buy a regular bottle at 50 cents or \$1, according to the size you prefer. We could mention hundreds and hundreds of families who are never without it. You can never tell when some member of the family will need a laxative, and then no time should be lost taking Dr. Caldwell's Syrup Pepsin.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 500 Caldwell Bldg., Monticello, Ill.

Education.

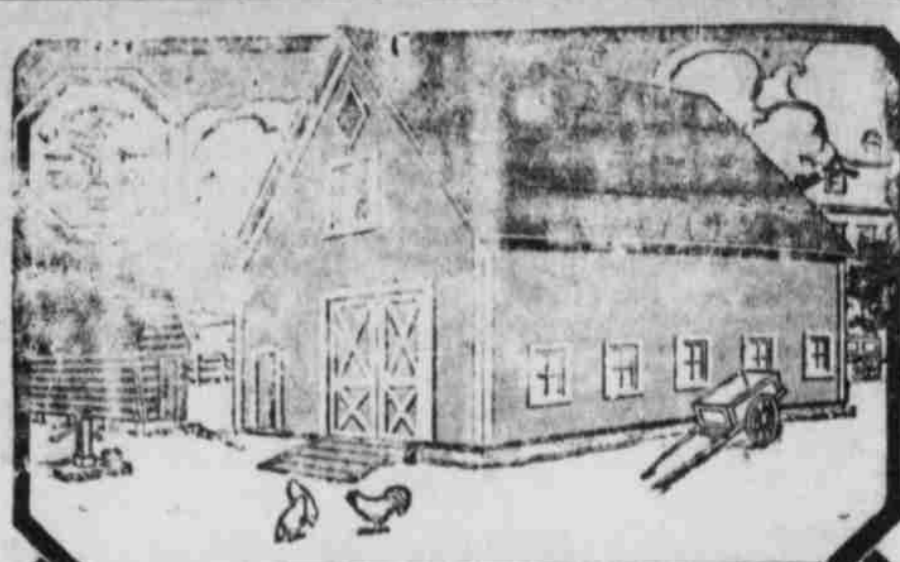

About the sixth century, B. C., the commonwealth of Athens, the leading y of the Ionians, elected Solow, chief ruler and bestowed upon him unlimited power and authority. He gave to Athens a constitution of laws, political, religious, social and educational. These were very different from those of Lycurgus, king of Sparta.

Especially different was the system of education provided for. It differed in aim, and therefore it differed in curriculum methods of instruction, sport and attendance.

But the aim of education today does not mean to prepare men for war but for civil life. It not only means to develop the mind, but the heart and willpower as well.

Kentucky has about thirty-seven in education a great part of our people live in the country, and the question of education which the country boy and girl should receive is one of high importance to the commonwealth. And it is a problem most likely to be overlooked. When educators assemble, it is the college man and the city teacher who are at the front. The needs of the city schools and the proper method for their management are more or less prominent before the public. The country school and the country school teacher, out of sight, and forgotten. Now let us consider what are the needs of those country boys and girls. They have a good physical start in their country out-of-door life, but he comes the pull, where shall they find the ideals of life, the principles of conduct, the inspiration and motives of achievement that shall fit them to make the most of themselves and their families? By the fact, at they are far from town, they are sheltered from many temptations and evils of city life. But, they are in special need of the awakening voice and the guiding hand that shall put them in step with the progressive force of the world and make them share in the best elements of civilization.

Could we but see every country home beautified in its surroundings, its humble hearth, graced by a shelf of books. It would take us to make a man fully competent to manage the affairs of school. The people of Kentucky have been very slow in learning, some times they will say, I have educated my children, but they never think any thing about their neighbor's children, but remember what is good for your children will be good for theirs. Every man should take an interest in school affairs, not only in his own home, but in every home. When the whole country gets aroused and gets right down to business, puts their shoulders to the wheel, then we are going to pull together and raise Kentucky above the thirty-seventh mark in education. Every one of us has got some had opportunities to deal with. I have talked with some who you couldn't interest on the subject, but they had much rather talk to you about hunting, a good pack of hounds and had their be able to tell you when a hound was running on a cold trail, than to tell you he knew how to spell and could write a business letter. But the time is here, I am glad to say, when we are going to have better schools, better opportunities to acquire an education. So now boys and girls, its up to you, its yours if you want it. So now be ready, everyone of you, to partake with this fall's school begins, set your high and work downward every day and remember that you are citizens and are laboring to build up not only yourself but your community. Its well, and remember how much good you can do your fellow schoolmates, if by nothing else but being a straight stake; thence N 51 W, 6 poles to a up and down gentleman, and ever ready to take hold and push, don't be a pull back to yourself, and above all, don't get the old cry started "Don't like the teacher," for you must bare in mind one man or woman can't please every body, for Christ didn't, but get to looking at school work as a business proposition, and make a business out of it by going every day, studying all the time you possibly can, then you are a success,
